Message from our new President

Greetings to all PMI-NNV members from your new President

Our Chapter is strong and growing, and we have a great leadership team with many ideas for making chapter membership more valuable to you. Joe Fitts will be a tough act to follow, but I have benefitted greatly from working with him and the other board members over the past year and I will do my best to be a worthy successor.

This is a volunteer-run organization and we can always use more help. Probably because we are a relatively small PMI chapter (and project managers tend to be very busy people) we always have a number of volunteer positions open. Take a look at **Volunteer Opportunities** under the **Get Involved** tab on our website and if you spot one that coincides with your interests and abilities, please get in touch with any member of the board to discuss it further. We also have a very important board position still open: President Elect. According to our bylaws, it is a substantial commitment: two years as President Elect followed by two years as President. If you have leadership experience, please consider volunteering for this; I really don't want to be President for Life.

Please don't hesitate to get in touch with me if you have any concerns or great ideas about our Chapter. All input is welcome.

Sincerely,

David Richards

We Are Teaching Project Management to Non-Profits

In an effort to give back to Nevada communities, PMI-NNV members are delivering very affordable PM Overview training to Nonprofits. In the past 9 months, we've taught more than 120 northern Nevada nonprofit employees and facilitated the training of an additional 23 in southern Nevada. Attendees represent a variety of social service and health care nonprofits.

The nonprofit initiative fostered by PMI Education Foundation (PMIEF) encourages individual chapters to provide training specific to nonprofits in their region at little or no cost. Last June, Sue Churchill, PMP and PMI-NNV co-founder, and Cheryl Allen, PMP and current PMI-NNV Program Chair, expanded PMIEF course materials to provide attendees with resource workbooks covering key PM concepts, methodology, tools and templates useful for small and large nonprofit agencies. Both Sue and Cheryl teach the classes, with Lisa Bausell, PMP and PMI-NNV's VP of Professional Services, and instructor Laurie Landfried Schroeder, PMP,

ready to teach them as well. In addition, Swadha Rath, Ricki Henry and Cheryl Anderson teach our course through PMI Southern Nevada chapter.

To date, most of the classes have been arranged through two organizations - ANN, Association of Nevada Nonprofits, and Renown's nonprofit health organization, to achieve the desired minimum class size of 10 participants. In addition, a few open-enrollment classes were conducted last fall.

Participants engage readily in discussions, walking through charter creation and a myriad of planning activities for a nonprofit project. Comments range from appreciating the scope of project management functions to defining specific vocabulary to projecting ways to use individual tools and templates. Particularly popular are the RACI chart, risk management formula and lessons learned templates.

Going forward, the chapter plans to offer nonprofit training to meet regional needs. That means continuing to provide the 3-hour Project Management Overview, as well as a 7-hour class and potentially a 2-day class. The overview class is aimed at those new to project management and team members and stakeholders wanting to learn more concepts, vocabulary and methodology to work more closely with PMs. The 7-hour class could be divided into two sessions but would be aimed at uncertified functioning PMs and those seeking to become project managers. The longer 2-day class would focus on larger nonprofit projects and those interested in seeking PM credentials.

If you are interested in nonprofit PM training, please contact Sue Churchill at church_s@nvbell.net.

Businesses are challenged to stay ahead of the latest trends and competitive developments while building a responsive and agile IT capability to support growth. However, since everyone has access to the same tools, technology alone does not offer a competitive advantage. Your advantage depends on how you apply technology—more specifically, on the people who lead, support and optimize your IT initiatives.

TEKSYSTEMS | is a subsidiary of Allegis Group, the largest private talent management firm in the world. Our longstanding history and industry-leading position speak to our success in providing the IT staffing

solutions, IT services and talent management insight required for you to actualize ROI and sustain a truly competitive advantage in a fast-changing market.
